About

About this document

Congratulations and thank you for using HALion Sonic SE!

This document lists all update changes, fixes and improvements as well as known issues and solutions for HALion Sonic SE.

We wish you creativity and success using HALion Sonic SE!

Your Steinberg team
HALion Sonic SE 1.6

Improvements

Multi-core support
This update introduces true multi-core support. A single HALion Sonic instance can now access all CPU cores and make perfect use of the power available inside your computer.

A new preference on the options page allows you to choose how many cores can be employed by HALion Sonic. This is helpful to control the performance available to HALion Sonic SE in order to properly share cores with other applications, such as Cubase and Nuendo.

Miscellaneous improvements
- Slot numbers are now available for automation channels.
- A new key command window has been added.
- Morph Filter audio effect has been added.
## Issues resolved

The following table lists all issues that have been resolved and the improvements in this version.

<table>
<thead>
<tr>
<th>ID #</th>
<th>Issue</th>
</tr>
</thead>
<tbody>
<tr>
<td>4247</td>
<td>MIDI: NoteOff timing has been improved with larger buffer sizes.</td>
</tr>
<tr>
<td>4245</td>
<td>MIDI: Velo 0 is now interpreted as NoteOff.</td>
</tr>
<tr>
<td>4187</td>
<td>MIDI: An issue has been resolved where sometimes not all necessary notes got triggered after starting a MIDI file.</td>
</tr>
<tr>
<td>4216</td>
<td>GUI: Drawing errors (gray areas) that appeared after loading programs no longer occur.</td>
</tr>
<tr>
<td>4168</td>
<td>Slot rack: An issue has been resolved where the slot rack was empty the next time the previously saved project was loaded.</td>
</tr>
<tr>
<td>4156</td>
<td>Pitch-bend wheel: An issue has been resolved where the pitch-bend wheel was not in middle position after loading a preset (Windows 32-bit only).</td>
</tr>
<tr>
<td>4129</td>
<td>Trigger pads: An issue has been resolved where NoteOff signals were missing due to retriggered events.</td>
</tr>
<tr>
<td>4128</td>
<td>Quick Controls: An issue has been resolved that appeared on moving the first Quick Control while playing the &quot;Hihat Select&quot; program.</td>
</tr>
<tr>
<td>4090</td>
<td>Quick Controls: Now Quick Control names directly show up after loading in the Inspector in Cubase.</td>
</tr>
<tr>
<td>2993</td>
<td>FlexPhraser: An issue has been resolved that appeared when a phrase was changed during playback to an arp sequence.</td>
</tr>
